NOTICE OF INTENTION TO REVISE MINING OPERATIONS

When an operator intends to revise a mining operation, a Notice of Intention to Revise Mining Operations shall be filed with the Division. The notice must include all information, concerning the revision, that would have been required if it had been included in the original Notice of Intention (NOI). Ideally, the revision application should be a "stand-alone" document and include all information necessary to conduct a complete review.

"REVISION" means a significant change to the approved Notice of Intention to Conduct Mining Operations, which will increase the amount of land affected or alter the location and type of onsite surface facilities such that the nature of the reclamation plan will differ substantially from the approved Notice of Intention. Revisions require public notice and may require approval by the Board of Oil, Gas & Mining, if a change to the amount and/or form of the reclamation surety is necessary.

"AMENDMENT" is an insignificant change to the approved Notice of Intention. An amendment requires Division approval, but does not require public notice.

The Division will determine whether a request for change is significant or insignificant on an individual case-by-case basis.

PLEASE NOTE: When applicable, reference to previously approved information contained in the original NOI can be used (identify volume #'s, section, page #, plate/map #'s, & date of submittal). If possible, please attach appropriate copies of the referenced material as part of the application for revision.

Where possible, please format the application to revise mining operations (e.g., text, maps, tables, figures, etc.) to allow direct insertion into the original NOI as replacement pages, or as a separate addendum to the approved NOI.

TOWNSHIP 32 S, RANGE 26 E.

SECTION(S) SW 1/4; SE 1/4 Sec 21 (Identify to 1/4, 1/4 section)

- ## 7. Ownership of Land Surface:

Private (Fee) X Owners Name(s): John H. Skidmore
(Private) 205 North Park, Cortez, CO 81321

State of Utah _____ Public Domain (BLM) _____ National Forest (USFS) _____

- ## 8. Ownership of Minerals:

Private (Fee) X Owners Names(s): John H. Skidmore
(Private) 205 North Park, Cortez, CO 81321

State of Utah _____ Public Domain (BLM) _____ National Forest (USFS) _____

9. Utah Mining Claim Number(s) _____

 10. Utah State Lease Numbers(s) _____

- III. The vent hole will be six feet in diameter and 656 feet deep. A drill hole was drilled on the site and encountered no water. Thus there will be no impact on the groundwater.
- V. After completion of mining, the pad will be removed and the area will be reclaimed to the present existing contours. The area will then be reseeded. The reclamation of the vent hole will consist of waste placed in the vent hole to within seven feet of the surface. A five foot cement plug will be placed at the top of the waste within two feet of topsoil to the vent hole collar.

VII. SURETY (Rule 613-004-113)

Reclamation Surety:

Indicate whether the proposed activities will change the amount of work required to reclaim the minesite. If significant changes will result, then a reclamation cost estimate should be provided with direct reference to the specifics of the proposed change(s). This information will be used to assist the Division in determining any reclamation surety adjustments required for the operation.

VIII. SIGNATURE REQUIREMENT

The application for permit change must include a section similar to the following example:

I hereby certify that the foregoing is true and correct.

Signature of Operator/Applicant: J. Vanderpool

Name (Typed or Print): J.S. Vanderpool

Title of Operator/Applicant: Geologist

Date: 3/4/91
